## The University of Jordan School of Engineering

Department			Course Name	Course	s S	emester				
Aircraft maintenance Engineering		ce	Licensing Module 7: Mainter	0994252	2	Fall				
2025 Course Catalog Description										
Safety precautions-aircraft and workshop, Workshop practices, Tools, Avionic general test equipment, Engineering										
drawings, diagrams and standards, Fits and clearances, Electrical Wiring Interconnection System (EWIS), Riveting.										
Instructors										
Name			T		Office Hours		Lecture Time			
			E-mail	Sec	Sunday	Tuesday				
MEng. Aasef Hamadneh		eh	ahamadneh@joramco.com.jo		1:00-2:00	1:00-2:00				
Text Books										
Title			Maintenance Practice							
Author	Author(s)		EASA							
Publish	Publisher, Year, Edition Issue 2, 2024									
References										
Books										
Interne	is t links									
Prerequisites										
Prerequisites by topic			-							
Prerequisites by course		se	-							
Co-requisites by course										
Prerequisite for			-							
			Topics Co	vered						
Week	Topics			Chapter in Text						
1	Safety Precautions-Aircraft and Workshop,					Chapter 1				
2	Workshop Pr	ractice	es,	Chapter 2						
3-4	Tools.			Chapter 3						
5-6	Engineering I	Drawi	ngs,	Chapter 4						
6-7	Diagrams and	d Star	ndards,	Chapter 5						
7-8	Fits and Clea	rance	S,	Chapter 6						
9-10	Electrical Wir	ring Ir	nterconnect System (EWIS),	Chapter 7						
11-14	Riveting,			Chapter 8						
14-15	Pipes and Hoses, Bearings.						Chapter 9, 10			

Mapping of Course Outcomes to ABET Student Outcomes											
SO	s	Course Outcomes									
2	Wł pra	Where applicable, the student will also be able to read, understand and use sketches, drawings, schematics and practical demonstration to describe the subjects.									
4	At Ma cor	At the satisfactory completion of this Module the student will be able to give the required description of the <b>Maintenance Practice</b> used on Aircraft as appropriate, typical examples and mathematical formulae in conjunction with physical laws.									
Evaluation											
Asse	essment	Tools		Expected	Expected Due Date						
Proj	Projects										
Midterm Exam											
Fina	al Exam										
Contribution of Course to Meet the Professional Components											
Relationship to Student Outcomes											
SOs		1		2	3	4	5	6	7		
Availability				X		X					
	Relationship to Aeronautical Engineering Program Objectives (AEPOs)										
	AEPO1		AEPO2	AEPO3		AEPO4	А	AEPO5			
				ΔΕ	RET Student	Outcomes					
1	An ahi	ity to iden	tify for	mulate and s	olve complex e	engineering r	oroblems by apply	ing principles of	engineering		
-	science	, and math	ematics	indiate, and 5	orve complex c	ingineering r	footening of approx	ing principies of	engineering,		
2	An abi	ity to appl	y engine	eering design	to produce solu	tions that m	eet specified needs	s with considera	tion of public		
	health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors										
3	An ability to communicate effectively with a range of audiences										
4	4 An ability to recognize ethical and professional responsibilities in engineering situations and make informed										
	judgments, which must consider the impact of engineering solutions in global, economic, environmental, and										
	societa	contexts						•			
5	An abi	ity to func	tion effe	ectively on a to	eam whose mer	mbers togeth	er provide leaders	nıp, create a coll	aborative and		
6	Inclusive environment, establish goals, plan tasks, and meet objectives										
U	An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering indoment to draw conclusions										
7	An ability to acquire and apply new knowledge as needed, using appropriate learning strategies										
	Undated by Curriculum Committee 2025
